

LEIPZIG INTERNATIONAL SCHOOL GMBH

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [Leipzig International School](#) is an independent, coeducational day school, which has been in operation since 1992 and offers an educational program from nursery through grade 12 for students of all nationalities. The school is accredited by the Council of International Schools and the New England Association of Schools and Colleges. Read more on the [Overseas Schools Fact Sheet](#).
